

Add a photo gallery

1. Open Pages

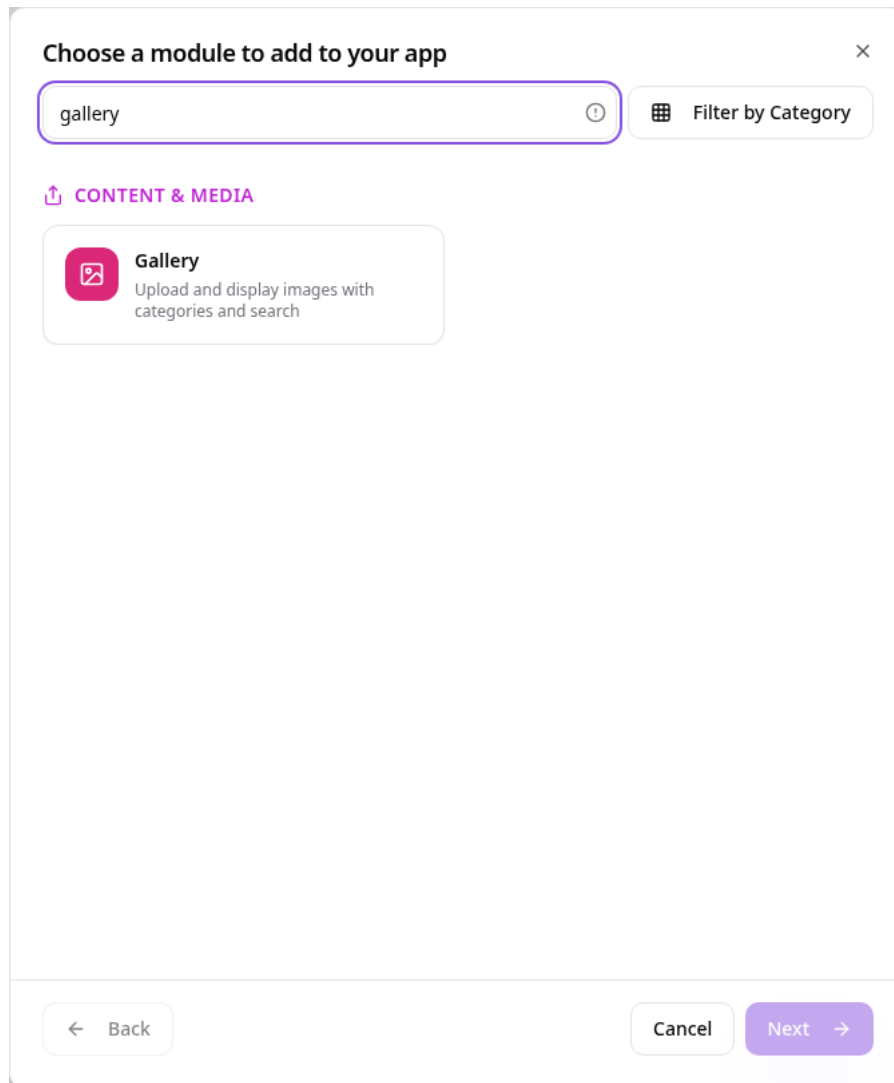

In your app editor, open Pages and tap Add Page or Function.

Add a photo gallery

2. Choose Gallery

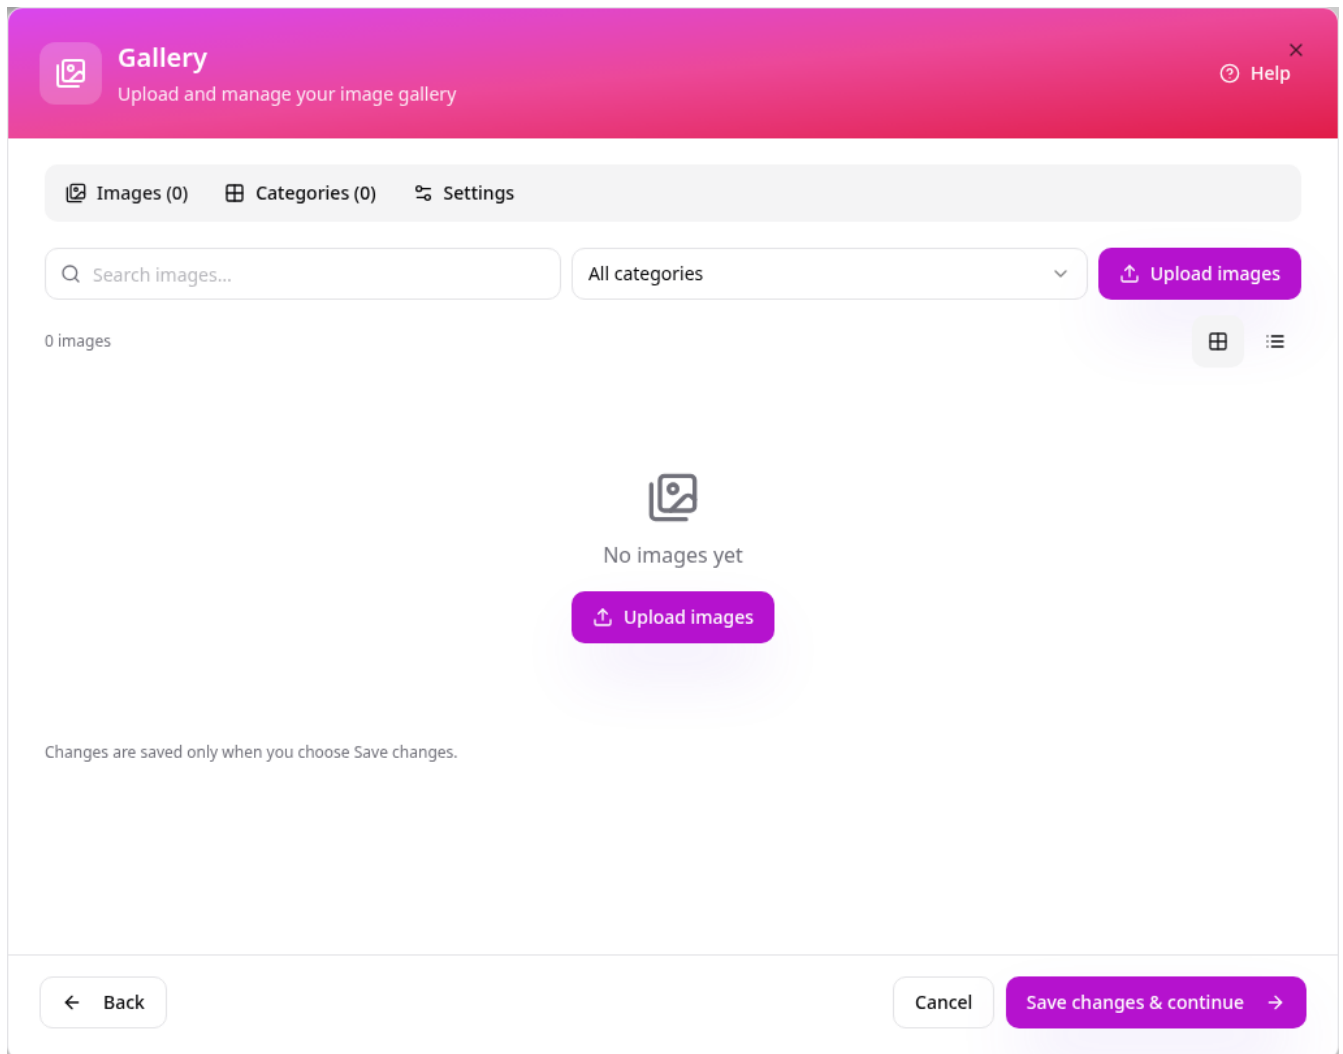

Search “gallery” and tap Gallery.

Add a photo gallery

3. Start your gallery

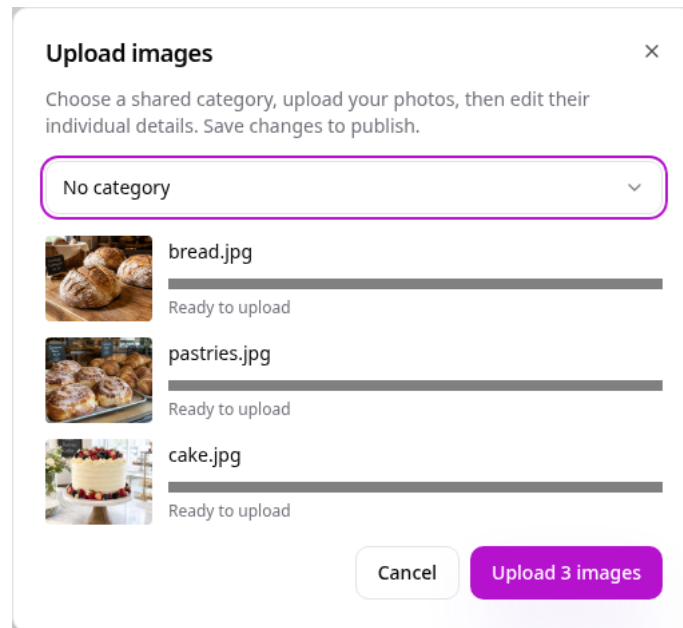

Your new gallery is empty. Tap Upload images.

Add a photo gallery

4. Upload your photos

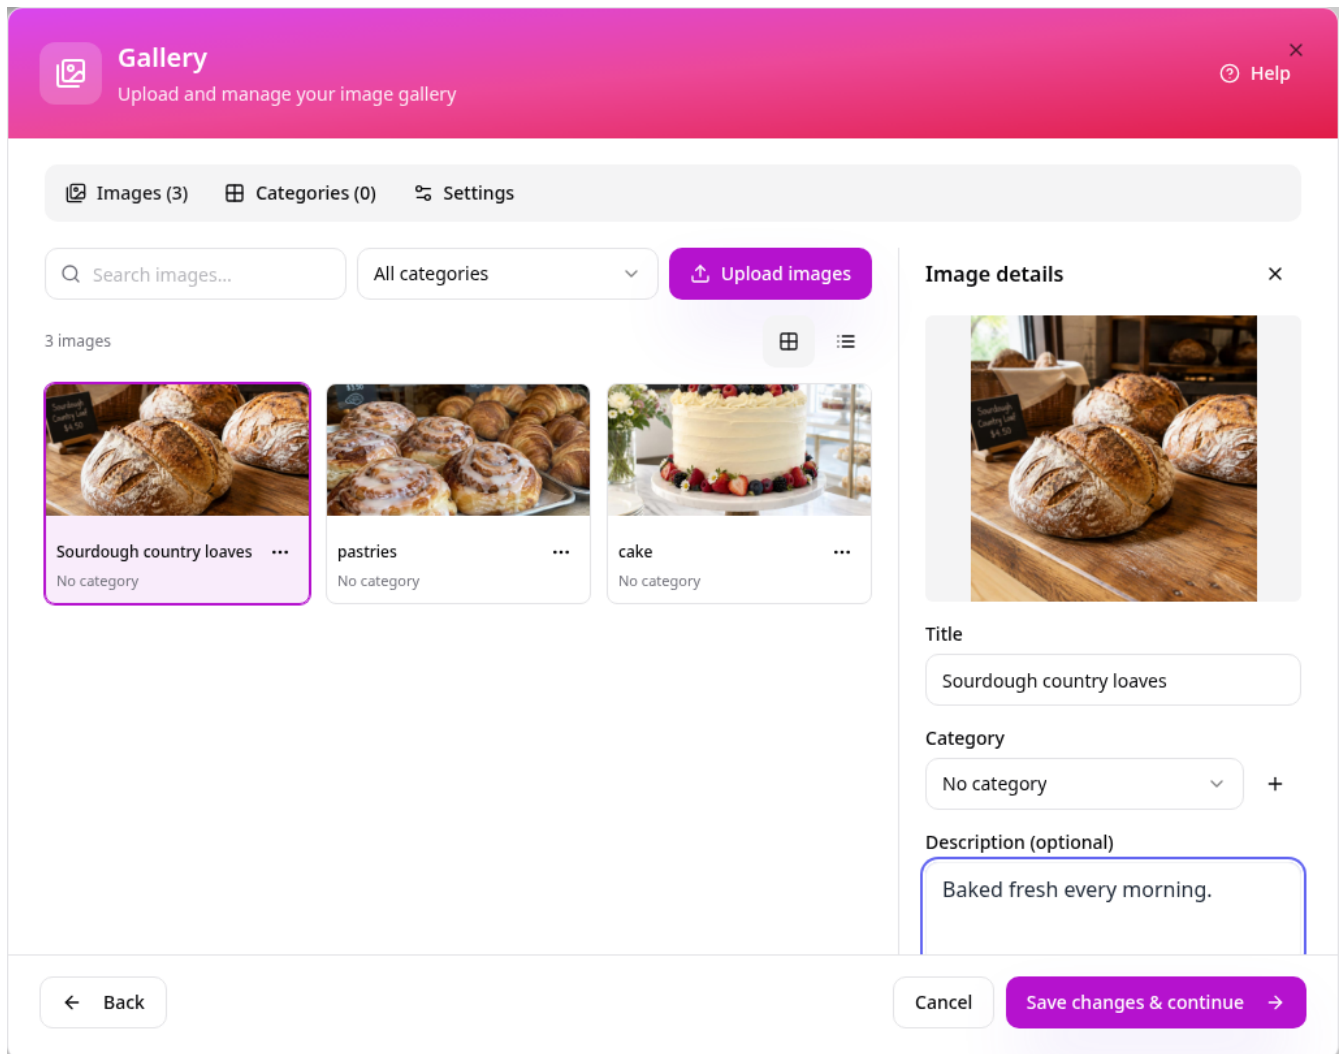

Pick several photos at once, optionally choose a category, then tap Upload.

Add a photo gallery

5. Add photo details

Tap a photo to give it a title and description. Alt text and tags are optional.

Add a photo gallery

6. Choose the layout

Pick a layout, how many photos show per page, and whether visitors can comment.

Add a photo gallery

8. See it in your app

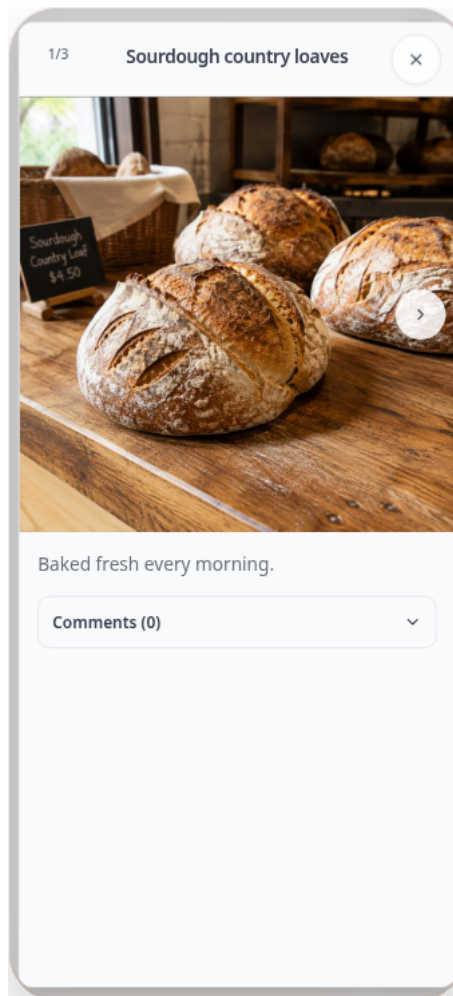

Your photos appear as a tidy grid of square thumbnails.

Add a photo gallery

9. View a photo

Tap any photo to see it full size. Swipe or use the arrows to move between photos.

Add more photos at any time from Edit Page Content. Use categories if you have lots of photos so visitors can filter them.
