

Add a social wall

1. Open Pages

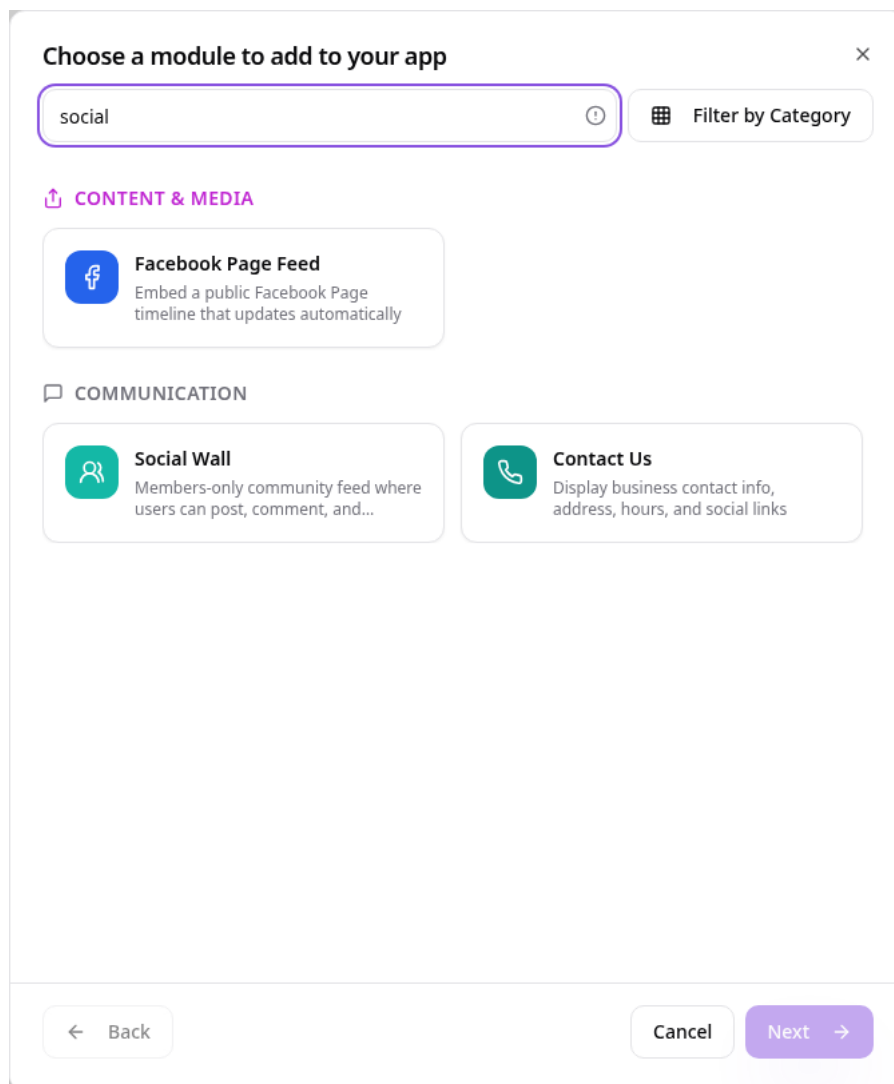

In your app editor, open Pages and tap Add Page or Function.

Add a social wall

2. Choose Social Wall

Search “social” and tap Social Wall.

Add a social wall

3. Allow photo posts

Media posts are switched on by default, so members can attach photos to their updates.

 **Configure Social Wall**
Set up your community feed settings

 Help

Configure Social Wall

Set up the basic configuration for this function

 **Enable Media Posts**
Allow users to attach photos and videos to their posts

 **Maximum Post Length**
Set the character limit for posts (default: 2000)

 **Primary Color**
Choose the accent color for buttons and highlights

 **What is Social Wall?**
Social Wall allows your app users to create posts, share media, comment, and interact with each other in a community feed. Perfect for building engagement and fostering conversations within your app.

Add a social wall

6. Members sign in first

Your wall is members-only. Visitors are asked to sign in or create an account before they can post.

Add a social wall

7. Create an account

New members add their name, email and a password — no waiting for approval.

Add a social wall

8. Your wall is ready

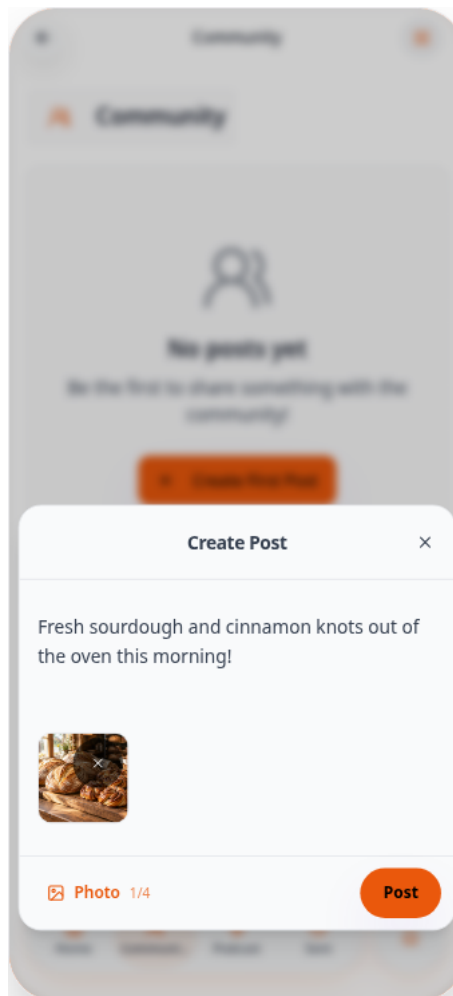

Signed-in members see the community feed. Tap Create First Post to start the conversation.

Add a social wall

9. Write your post

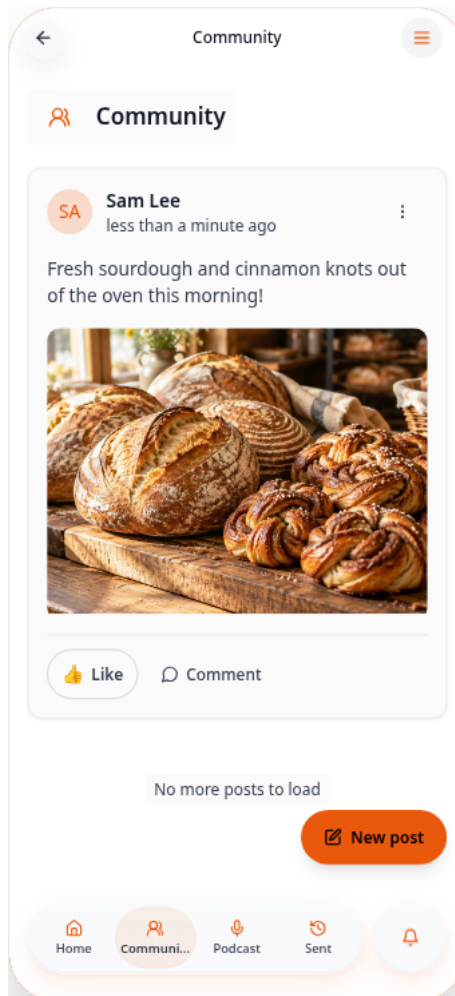

Type your update and attach a photo from your device, then tap Post.

Add a social wall

10. See it on the wall

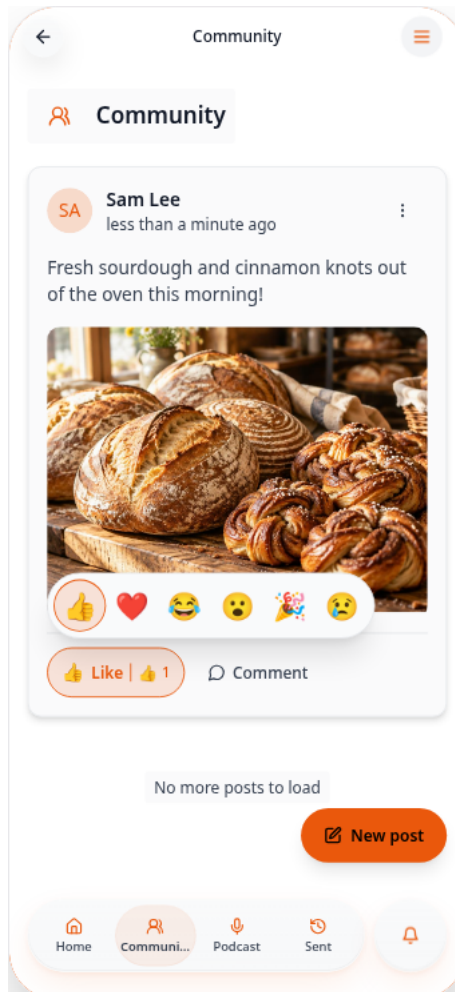

Your post appears at the top of the feed with your name and photo.

Add a social wall

11. React to a post

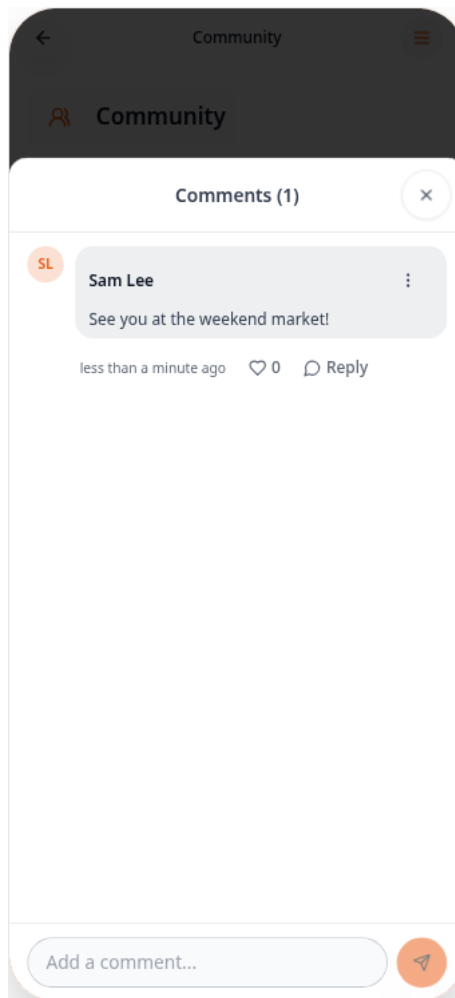

Tap the thumbs-up to like a post — hover or hold for more reactions such as love and celebrate.

Add a social wall

12. Comment

Tap Comment to join the conversation — replies appear straight away.

Only signed-in app users can see and post on your wall, so your community stays private. Members can share updates and photos, react and comment — everything appears in the feed straight away.
